PROFESSIONAL SUMMARY

Software Developer with hands-on experience in backend and frontend technologies, including Core Java, Spring Boot, REST APIs, React, and MySQL. Skilled in writing clean, maintainable code with strong understanding of data structures and object-oriented programming. Adept at collaborating across teams, debugging issues, and continuously learning new frameworks and tools.

SKILLS

Languages: Core Java, Java 8 (Lambda, Stream API, Interface Enhancements), SQL, JavaScript
Back-End: JDBC, Servlets, JSP, Spring Boot, Spring MVC, Hibernate, RESTful APIs, MicroServices.
Front-End: HTML, CSS, JavaScript, React.js, Bootstrap, Thymeleaf
Database: MySQL, PostgreSQL
Tools: Git, GitHub, Maven, Postman, IntelliJ IDEA, Eclipse, VS Code, Claude code.
Soft Skills: Strong communication, collaboration, problem-solving, adaptability, and continuous learning mindset

PROFESSIONAL EXPERIENCE

- Pentagon Space Pvt Ltd, Apprentice Software Developer** 01/2025 – 08/2025 | Bengaluru
- Developed web applications using Core Java, Java 8, JSP, Servlets, JDBC, and MySQL following MVC architecture.
 - Built backend services and collaborated with team members to debug issues and optimize code.
 - Participated in code reviews and sprint planning sessions in an Agile environment.
- Polygnan Foundation, Software Development Fellow** 10/2025 – 12/2025 | Remote
- Built TalentBridge, a skill-based campus placement platform using Spring Boot and MySQL.
 - Developed RESTful APIs for user authentication and profile management.
 - Created responsive web interface using JSP, Bootstrap, and JavaScript.

PROJECTS

- TalentBridge: Skill-Based Campus Placement Platform**
Spring Boot | Spring MVC | MySQL | JSP | Thymeleaf | Bootstrap | Hibernate
- Built skill-based campus placement platform using Spring Boot, Spring MVC, and MySQL for streamlined recruitment.
 - Designed and implemented RESTful API endpoints using Spring REST Controllers for user authentication, profile management, and skill assessment.
 - Developed responsive web interface using JSP, Thymeleaf templates, and Bootstrap following mobile-first design principles and accessibility standards.
- PetHub: E-commerce Platform for Pet Products**
Java EE | JSP | Servlets | JDBC | MySQL | HTML/CSS | JavaScript | React
- Created a Java EE web application using JSP, Servlets, JDBC, and MySQL for pet product e-commerce.
 - Implemented shopping cart functionality and product management following MVC architecture.
 - Designed database schema with multiple tables for products, users, orders, and transactions.
 - Built RESTful backend and integrated with React-based frontend for dynamic user interface.
- Cattle Disease Pattern Prediction System**
Java | Spring Boot | RESTful APIs | MySQL | Spring Data JPA | Hibernate
- Developed Spring Boot application for analyzing cattle health records and predicting disease patterns.
 - Built RESTful APIs for data processing and pattern analysis with proper validation and error handling.
 - Implemented data access layer using Spring Data JPA and Hibernate for efficient database operations.
 - Followed layered MVC architecture ensuring code maintainability and scalability.

EDUCATION

Vivekananda Institute of Technology,
Bachelor of Engineering in Information Science and Engineering 2025 | Bengaluru
CGPA - 8.3
